THEMIS SOLUTIONS INC. INTRODUCES CLIO
WEB-BASED LAW PRACTICE MANAGEMENT SYSTEM

New Software as a Service (SaaS) Offering is “Practice Management Simplified”
For Solo Practitioners and Small Law Firms Using Macs or PCs

July 1, 2008 – Vancouver, BC – Themis Solutions Inc. introduces Clio, a new web-based practice management Software as a Service (SaaS) offering. Clio is specifically designed for solo practitioners and small law firms using PCs or Macs.

Intuitive, secure and easy-to-use, Clio provides time tracking, billing/reporting, client contact and document management, task scheduling, trust management, and performance metrics.

Clio’s features and tools were demonstrated at last week’s LegalTech West Coast/Rainmakers’ Forum in Los Angeles.

Clio Features

- **Time Tracking:** Track time by client, matter, and task. Reduce lost time and eliminate paper timesheets.
- **Billing and Reporting:** With integrated tracking for trust funds and retainers, Clio generates customized invoices and outstanding bill reminders.
- **Client/Contact Management:** Clio’s contact management system links to information on clients, matters and billings.
- **Task Scheduling:** With Clio’s complete Ajax-enabled calendaring and reminder system, appointments are easily clicked, dragged and viewed by day, week, or month.
- **Document Management:** Securely access documents online and track document versions.
- **Trust Management:** Maintain accurate trust transaction records to ensure that funds are appropriately tracked.

- **Practice Performance Metrics:** Track current, expected, and target billing figures daily, weekly, or monthly.
- **External Security:** Clio uses password protection with bank-grade 256-bit SSL encryption. Data is backed up daily to a secure, offsite data center, and frequent third-party audits ensure data security.
- **Internal Security:** Combining the convenience of the web with the security of a desktop application, Clio can restrict access to confidential files or client records.

Clio can run on PC or Macintosh computers, and it supports Internet Explorer 6.0 and 7.0, Mozilla Firefox 2.0 and 3.0, and Safari 3.0.

Clio is affordably priced by monthly subscription. Early subscribers are invited to sign up for a free trial evaluation at www.goclio.com.

Themis Solutions Inc., developer of Clio, is based in Vancouver, British Columbia, and provides solo and small firms with effective online practice management systems that are easy-to-use and affordable. Clio was developed with cooperation from the Law Society of British Columbia. Visit www.goclio.com or call 1-888-858-CLIO.
